POLICE PROTECTION.

The police protection of any city or town is most important. Any municipality with the reputation for effectiveness in regard to police protection is given a wide berth by crooks and at the same time it has a salutary effect on those local characters which every town has and which have to be kept within bounds. The Optic, after giving due credit to the city police department, believes that there is room for improvement. It believes that the people who pay the taxes have a right to expect value received in the matter of proper police protection.

The indignities to which those young women were subjected on Monday night while walking along the business and residence streets of the city should not for a moment be tolerated. It will be a deplorable condition indeed in Las Vegas when a woman or a girl cannot walk along the streets in this city in the evening, without being in danger of insult or attack from some low-bred human being or lust-crazed man.

The people naturally rely on the police department for protection. And why shouldn't they? Is that not what the police are for?

Therefore, it is up to the police to see that adequate protection is given; that all suspicious characters are promptly rounded up and either arrested and fined or made to move on.

The time for improvement in the

work of the city police is now; not after some dastardly outrage has been committed, or robbery has taken place.

PEOPLE DEMAND LOW RATE

Comments were heard on every hand today, complimenting this paper on the stand it has taken in regard to the proposed low rate statehood excursion to Albuquerque on October 15, when President Taft will visit that city.

The business men and citizens generally are insistent that the Santa Fe railway make a special excursion rate of \$2 for the occasion, and furnish special equipment to carry the crowds that will want to go.

It is understood that the matter of a lower rate than one fare for the round trip has already been taken up with the general passenger agent of this road and something definite is expected shortly as regards what action, if any, he will take.

Not only do the people of Las Vegas demand this low excursion rate, but the people in every New Mexico city and town along the lines of the Santa Fe.

The commercial club of this city is expected to take the matter up immediately, as well as the commercial clubs of Albuquerque, Santa Fe, Raton and other cities in the territory.

PROVISIONS OF THE "HITCH" ORDINANCE

That the people may know, and in order to give them fair warning that they may escape getting "pinched". The Optic has gone to the trouble to secure a copy of the so-called "hitch" ordinance, which for some years past has been allowed to lay dormant on the city's statute books, grow yellow with age and mouldy with time. Its ancientness is shown by its number, which is 3. The ordinance is sweeping in its character and provides besides a fine for its violation, that the owner of any horse, horses, or teams shall in addition be held liable for all damage caused by a runaway arising from a failure to properly hitch their horse or teams when left standing on the streets of the city. The full text of the ordinance follows:

Ordinance No. 3, Section No. 5.—That no horse or horses, mule or mules and teams of all descriptions

whatever, shall be left unguarded or unhitched on the public streets of the town of Las Vegas, and that the owner of any runaway team shall be held responsible for all damages caused by the violation of the ordinance, and in addition be fined not less than \$5 nor more than \$50.

Section 6.—Any convenient place that may not be obstructed by the tying of animals, any ring in curbstone or sidewalk, placed for that purpose or any iron weight not less than 25 pounds in weight, shall be lawful places for hitching.

Section 7.—Any runaway referred to in preceding sections, shall be taken up by the marshal or his deputies and put in pound, and held there as a lien for fine, costs and a part of the damages, if there be any.

WILL TRY TO LOWER DENVER MOTORCYCLE RECORD

R. D. Davidson, the popular and well known clerk in the local office of the Wells, Fargo & company express, has taken a 30-day leave of absence and will spend his vacation in Salt Lake City, a portion of which time he will relieve one of the clerks in the Salt Lake City offices. Mr. Davidson will leave here at daylight in the morning on his motorcycle and will endeavor to establish a new record between this city and Denver. Prof. Jesse Nusbaum, formerly of this city, made the trip from here to Denver in sixteen hours and it will be Mr. Davidson's endeavor to beat that time. W. D. Kennedy will make out the way bills during the absence of Mr. Davidson.

East Las Vegas Has to Bow to the Inevitable—Scores of Citizens Prove It

After reading the public statement of this representative citizen of E. Las Vegas given below, you must come to this conclusion: A remedy which cured years ago, which has kept the kidneys in good health since, can be relied upon to perform the same work in other cases. Read this:

P. Clidlo, 506 Grand avenue, East Las Vegas, N. M. says: "I am as strong in my praise of Doan's Kidney Pills today as when I publicly testified in their favor two years ago. I had a great deal of trouble from my back. There was a steady, dull ache through my loins and right side and stooping caused sharp twinges. I believe that my work was responsible for the trouble, as I am obliged to sit in a cramped position so much of the time. Prompt relief followed the use of Doan's Kidney Pills and the contents of one box completely cured me. I felt no return of backache until about three weeks ago and then the attack was very slight. I once more used Doan's Kidney Pills and they disposed of the trouble in quick order. One of my relatives who was confined to his bed for some time, as the result of kidney complaint took Doan's Kidney Pills on my advice and the contents of three large boxes restored him to good health."
